SUMMARY

Recent Computer Science graduate with a strong foundation in Java and MySQL, eager to leverage my skills in web development. I am a quick learner, passionate about emerging technologies, and seeking an entry-level position to contribute to innovative projects and grow professionally.

WORK EXPERIENCE

Software Testing Intern - Internship Studio   Dec 2023 - Mar 2024

Designed and implemented comprehensive test procedures to ensure software functionality and quality. Identified and documented software defects, contributing to robust bug-free applications. Collaborated with development teams to resolve issues and improve product quality. Utilized various testing methodologies to ensure software met user expectations and industry standards. Gained valuable experience in the software testing lifecycle through hands-on projects and mentorship.

PROJECTS

Virtual trail room   Link to Demo

Developed a Virtual Trail Room application, allowing customers to virtually try on clothes without the pressure of physical stores. The platform utilizes advanced AI and AR technologies to provide a realistic and engaging experience, enhancing customer satisfaction and driving online sales. I played a key role in the development and implementation of the platform, ensuring a seamless user experience. This project significantly reduced the barriers to online fashion shopping, contributing to a more inclusive and convenient shopping experience.

Personal Portfolio Website   Link to Demo

Developed a comprehensive personal portfolio website showcasing my skills, experience, and creative projects. The website provides a professional online presence, highlighting my abilities and fostering potential client and employer connections. Utilized HTML, CSS, and JavaScript to create a visually appealing and user-friendly interface. Integrated a portfolio section to showcase my diverse work, including design projects, coding examples, and writing samples.
